WHAT TYPE OF SCIENTIST ARE YOU?

1	2	3	4	5	6	7
I like graphs. ☐	I like making things. ☐	I like putting things into groups. ☐	I like reading science books. ☐	I like writing what I found in a table. ☐	I like to finish a story to see what happens. ☐	I always think of new ways of doing something better. ☐
I like to say what might happen next. ☐	I see myself as an inventor. ☐	I like things to be in order. ☐	I like it when science is on the news. ☐	I like it when something is very precise and accurate. ☐	I enjoy watching people, animals and plants. ☐	New ideas always pop into my head after I've done something. ☐
I like finding patterns in things. ☐	I like solving problems. ☐	I like finding out what is the same and different about things. ☐	I like to learn from people around me. ☐	I like experimenting one thing at a time. ☐	I am patient. ☐	I always have new questions after experiments. ☐
I like to understand how things work. ☐	I am creative and like imagining new things. ☐	I like remembering names of plants and animals. ☐	I enjoy watching science programmes. ☐	I like following a recipe exactly. ☐	I see myself as an explorer. ☐	I find it exciting when something happens that I didn't expect. ☐
