

Topic: Light	Year 6 Age 10-11	Title: Light thought showers
Working Scientifically	Conceptual Knowledge Focus explain that we see things because light travels from light sources to our eyes or from light sources to objects and then to our eyes	

Example

Children were asked to complete a thought shower at the beginning and end of a unit on Light.

Children showing progress in their understanding will use words or diagrams to demonstrate more developed explanations of light travelling from light sources to objects, which may reflect light into our eyes.
