

Topic: Forces	Year 3 Age 7-8	Title: Car graph
Working Scientifically Focus Do: recording findings using bar charts and/or tables		Conceptual Knowledge Context compare how things move on different surfaces

Example

Children were asked to release a car down a ramp and measure the distance it travelled on different surfaces at the bottom.

Surface	Distance travelled (cm)
Carpet	24cm
Rubber	31cm
Wood	53cm
Plastic	103cm
Sandpaper	6cm ✓

Children meeting the objective would be able to record their results in a table or bar chart. Some children may be able to draw their own table or decide on their own scale for their bar chart.

Example from Shaw Primary School, Melksham
