

<p>Topic: Rocks</p>	<p>Year 3 Age 7-8</p>	<p>Title: Explaining fossil formation</p>
<p>Working Scientifically Link Review: reporting on findings from enquiries, including oral explanations</p>		<p>Conceptual Knowledge Focus describe in simple terms how fossils are formed when things that have lived are trapped within rock</p>
<p>Example</p> <p>After class research on fossils children were asked to explain how fossils are formed. This example was filmed on a trip to Aust beach where the children were fossil hunting.</p>  <p>For the video example see: https://youtu.be/ctdIE_00STc (unlisted so can only see if you have this link)</p> <p>Children meeting the objective would be able to explain the basic features of rock formation. The child in the video is able to go beyond this and describe the full sequence.</p>		
<p>Example from Victoria Park Primary School, Bristol</p>
