

Context: Light box provocation

Reception
Age 4-5

Title: Light box bugs

Adult-initiated focus on close observation

The children were supported to observe closely by providing them with access to a light box, a range of plastic bugs, drawing materials and 'The Big Book of Bugs' by Yuval Zommer.

Possible future provision / next steps

Go on a bug hunt outside, exploring places where invertebrates like to live. Compare different invertebrates e.g. how many legs do they have.

Learning outcomes (Development Matters, Reception):

Understanding the World: Explore the natural world around them.

Art and design: Explore, use and refine a variety of artistic effects to express their ideas and feelings.
