

Topic: Evolution and inheritance	Year 6 Age 10-11	Title: Egg strength
Working Scientifically Focus Review: Explain degree of trust in results		Conceptual Knowledge Context Identify how animals are adapted to suit their environment in different ways

Example

Children were asked to create their own methods for investigating the strength of eggs and then explain how much trust they had in their results.

Children meeting the objective would be able to explain why their chosen method was more trustworthy than their previous attempts.

Example from Holt Primary School, Wiltshire
