

Termites can help rainforests survive droughts

Your name _____

After reading the article, complete these responses by writing and drawing:

1. Label the features of an insect: head, thorax, abdomen, antennae, legs.

2. Explain what decomposers feed on in the rainforest.
3. Why might some people think that termites are bad?
4. What do you think are the three most important reasons for saving the rainforests?
 - 1)
 - 2)
 - 3)
5. After investigating which tunnels are stronger, complete this table:

	Dry sticky note 'tunnel'	Wet sticky note 'tunnel'
What does the paper tunnel look like from the side?		
How many 5p coins can it hold before it collapses?		

6. Do you think that this is important science work? Why?
