

## Woodland Walk

What creatures might we find on our woodland habitat walk?

Can you find any reasons why some creatures might like to live there?

Are there different habitats within a woodland setting?

Can you find any evidence of some of the creatures that may live there?

| Creature I think may live in a woodland | Reason found on the walk | Evidence found on the walk |
|-----------------------------------------|--------------------------|----------------------------|
|                                         |                          |                            |
|                                         |                          |                            |
|                                         |                          |                            |
|                                         |                          |                            |
|                                         |                          |                            |
|                                         |                          |                            |
|                                         |                          |                            |
|                                         |                          |                            |
|                                         |                          |                            |
|                                         |                          |                            |
|                                         |                          |                            |
|                                         |                          |                            |
|                                         |                          |                            |
|                                         |                          |                            |
