

Let's Go! CLIENT CARDS 1

FOR LET'S GO HABITAT ESTATE AGENTS

I can't stand the hustle and bustle of the playground! I'm a shy and retiring creature, but I'm also dependent on people for my dinner ... It's a real issue! Don't get me wrong - I'm no threat to humans, but I do benefit from the things they leave behind. Some people think I'm a bit of a pest and try to get rid of me, but I'm only doing what I've evolved to do! Being mainly nocturnal, I don't like to be disturbed in the day, but at night it's another matter. I'm out and about, using my excellent sense of smell to seek out tasty morsels - whether they're wrapped in plastic, or alive, feathered or squawking! I'm a clean sort of fellow, and I do need to drink, but I don't mind travelling a bit.

I love greenery, in fact I need a lot of it for nutrition. My favourite meals are juicy leaves and flowers. However, if I'm out in the sun for too long, I can dry up and die - not good! My favourite hangouts are warm, wet, and private. I'm not very good at getting out of trouble, as I can't move that quickly, so a good hiding place from those awful birds and other creatures is a must! I really do feel persecuted by everyone - humans are the worst. They poison me and try to get me out of their gardens. Can you find me a safe place to live?

Thanks for agreeing to find me a home! I have to move around quite a bit, so I know exactly what I am after ... I can't stand bright light, but lots of the flies that I eat love it. I do like a nice dark corner. Rain is a big problem for me as it destroys my home in a matter of seconds, but obviously I need a place to drink! I'm not keen on wind either, come to think of it ... Although I'm pretty good at defending myself against animals my own size, I'm frightened of birds and carnivorous animals that are bigger than me. So, can you help?

I'm a bit of a sun-seeker, sunbathing is so important to me. Not that I'm averse to a nice rain shower - that's important too, but a nice sunny day really keeps me energised. I do get lonely, so need company in order to breed. The wind helps me with that! I adore pretty insects, and don't even mind the stinging ones, I find we can help each other out ... The molar teeth of herbivorous animals are my nemesis, and I don't like the sound of a whirring blade either! Please can you help find me a good place to live?

Hi, I was wondering if you could help me out? I'm after the perfect home, somewhere nice and 'cheep'. I'm after somewhere I can really make my own - I'll be there for a while. I need somewhere very well protected from big birds, rats and other predators - not necessarily for me but for my children. It would be dark ideally, high up or tucked away, and not be too windy or exposed. I love to eat insects, especially caterpillars, but I also eat seeds and berries - I'm not too fussy! I do like a nice shallow bath, but the rain really doesn't do it for me.
