

## In the Park

**In your groups walk around the park and answer these questions:  
Take photographs, make notes or do quick sketches.**

- Can you find and name 3 living things in the park?  
Can you take a photo of one of them?
  
- Can you find and name 3 things that are not living in the park?  
Can you take a photo of one of them?
  
- Can you find 3 things in the park that once were alive?  
Can you take a photo of one of them?
  
- Can you find a worm?
  
- Can you name 3 places in the park where we might find some animals living?

## Let's Go! Living and Non-living

Indoor trail using questions and QR codes. Each group need iPad/Pod/Phone with QR reader (i-nigma).

Cut out and laminate the QR code with the question above. Place the QR code on the relevant material around the school. The children should read the question, discuss their thoughts and then scan the QR code to reveal the answer.

1. What is this made from? (wood)

How was it made?

2. What is this made from? (plastic)

How was it made?

3. What is this made from? (metal)

How was it made?
