

# Use Our Senses

## Cross-curricular activities

### English

Create Sense Poems: I like the taste of that, The smell of this, etc.

### Maths

Data handling: graphs on eye colour, who wears glasses etc.

### Technology

Researching the senses, who supports you if you lose one/don't have one? How do senses develop from babies to adults, why is this important? Design and make something that makes a sound, is textured, helps you see, etc.

There are more science investigations linked to senses on the PSTT website. <http://www.pstt.org.uk>

You may be interested in the **Sensory Sparks** club which provides eight activities that focus on using the senses. All can be freely downloaded and are ready to use.
