

TAPS Scotland Focused Assessment example

Topic:

Planet Earth: Space

Primary 7 Age 10-11

Title of example: Space research

Scientific skills focus **Presents scientific findings:**

Reports collaboratively and individually using a range of methods.

Curriculum link

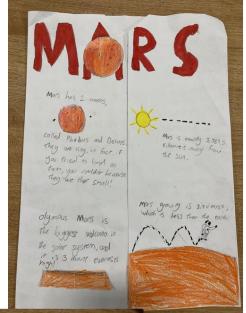

By observing and researching features of our Solar System, I can use simple models to communicate my understanding of size, scale, time and relative motion within it. SCN 2-06a

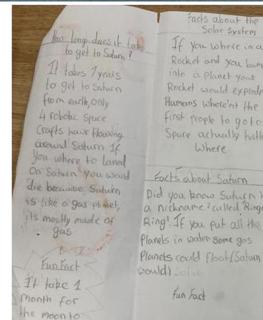

Example

As part of a Space topic, the class carried out research on the solar system (see TAPS activity plan for further details). The children chose one planet to research on the computer and made notes to inform their presentation. They presented their research in a variety of ways: fact file, powerpoint, scaled planet models and oral presentations

Children meeting the objective would be able to present their findings using of scientific language and with clarity.

go around

the earth

Facts about 11 If you where in a Rocket and you bumped Rocket would explode Humans whereint the first people to goto Space actually fulles Where.

fun Fact

Saturn is the flattest plant in our Solar system. Did you know that Saturn is 1.434 billion km away from the sun Saturn is the 2nd largest planet Satura 15 288 degres The ring around Saturn are made of Coutless Pathdrs of ite and rock Facts about space Did you know Swhite has venus is the hottest planet a nicknown called Ringed Mercure is the close to the

Facts about Saturn

· Jupiture is a gas planet · Pluto is not apparet. - Earth takes 1 year to go about the sun. . 200 million years it takes for the sun to go asound the Galixy

. Mars is double the size of the moon-half the Size of earth Mars is 35 million miles

away from earth

Saluen has about 62 moons in the 1 Planet Salurn is like agas planet it is made of gas, Hydrogen and Helium Did you know Venus is the hottest Plant in the Solar System, even know

its Fulher away

from the sun.

Facts about Saburn

Teacher box 4 - see TAPS pyramid for more egs of focused recording.
