

Topic: Our environment	Year 3/4 Age 7-9	Title: Minibeast survey
Inquiry Focus Do: I can observe I can communicate my findings		Concept Context I can explore relationships between living things and their habitats

Example

Children were asked to find out about the kind of animals living in the local area. Different groups were sent to different 'micro-habitats' to collect results.

Results		
microhabitat 1	Tally	total
woodouse		4 ✓
slug		0 ✓
Ant		2 ✓
WORM		1 ✓
other		3 ✓
Spider		0 ✓

Results		
microhabitat 2	tally	TOTAL
woodouse		5 ✓
slug		0 ✓
Ant		2 ✓
Worm		2 ✓
other		4 ✓

Children meeting the objective would be able to communicate their findings in a table or graph. They would be able to discuss what they found out.

Maths link: I can collect and organise data to ask and answer questions in relevant situations.

Example from Tongwynlais Primary School, Cardiff
