

habitats, living things in their environment, classification,
food chains | upper primary | set 1

environment

Science
DICE

habitats, living things in their environment, classification,
food chains | upper primary | set 1

population

Science
DICE

habitats, living things in their environment, classification,
food chains | upper primary | set 1

classification

Science
DICE

habitats, living things in their environment, classification,
food chains | upper primary | set 1

species

Science
DICE

habitats, living things in their environment, classification,
food chains | upper primary | set 1

characteristic

Science
DICE

habitats, living things in their environment, classification,
food chains | upper primary | set 1

reproduction

Science
DICE

habitats, living things in their environment, classification,
food chains | upper primary | set 2

energy

Science
DICE

habitats, living things in their environment, classification,
food chains | upper primary | set 2

inter- dependence

Science
DICE

habitats, living things in their environment, classification,
food chains | upper primary | set 2

relationship

Science
DICE

habitats, living things in their environment, classification,
food chains | upper primary | set 2

adaptation

Science
DICE

habitats, living things in their environment, classification,
food chains | upper primary | set 2

evolution

Science
DICE

habitats, living things in their environment, classification,
food chains | upper primary | set 2

variety

Science
DICE

habitats, living things in their environment, classification,
food chains | upper primary | set 3

ecosystem

Science
DICE

habitats, living things in their environment, classification,
food chains | upper primary | set 3

sustainability

Science
DICE

habitats, living things in their environment, classification,
food chains | upper primary | set 3

biodiversity

Science
DICE

habitats, living things in their environment, classification,
food chains | upper primary | set 3

extinction

Science
DICE

habitats, living things in their environment, classification,
food chains | upper primary | set 3

climate change

Science
DICE

habitats, living things in their environment, classification,
food chains | upper primary | set 3

fossil fuel

Science
DICE

habitats, living things in their environment, classification,
food chains | upper primary | set 4

human impact

Science
DICE

habitats, living things in their environment, classification,
food chains | upper primary | set 4

deforestation

Science
DICE

habitats, living things in their environment, classification,
food chains | upper primary | set 4

rewilding

Science
DICE

habitats, living things in their environment, classification,
food chains | upper primary | set 4

pollution

Science
DICE

habitats, living things in their environment, classification,
food chains | upper primary | set 4

soil erosion

Science
DICE

habitats, living things in their environment, classification,
food chains | upper primary | set 4

greenhouse gas

Science
DICE

habitats, living things in their environment, classification,
food chains | upper primary | set 5

earthquake

habitats, living things in their environment, classification,
food chains | upper primary | set 5

famine

habitats, living things in their environment, classification,
food chains | upper primary | set 5

flood

habitats, living things in their environment, classification,
food chains | upper primary | set 5

forest fire

habitats, living things in their environment, classification,
food chains | upper primary | set 5

hurricane

habitats, living things in their environment, classification,
food chains | upper primary | set 5

migrate
