# LETS DIG FOR FOSSILS!

Lottie wants to create a fun game for her friends so they can practice looking for fossils before they head out to the Jurassic Coast. Create a fantastic mini fossil dig that you can share with your friends!

## YOU WILL NEED

- Small plastic crate with shallow sides
- Adhesive pads or sticky tack
- Small rocks, toy dinosaurs or fossils
- Play sand
- Paintbrushes
- Small notebook

## WHAT YOU DO

### Step 1

In your small notebook, make some sketches or stick in photos of the objects that you will be putting into your fossil dig.

# LETS DIG FOR FOSSILS!

## Step 2

Using your adhesive pads or sticky tack, stick your chosen fossils onto the base of your crate. You can arrange them in any way you like.

## Step 3

Cover the fossils with a layer of play sand so that they are just visible to the eye.

**Step 4**

Now using your paintbrush, you and your friends can very gently brush away the sand from the fossils to reveal the treasure underneath!
