

Dinosaur Footprint Mystery

Ages	Subject	Topics	Resources
3-5 years 5-7 years	Science Art & Design English	Dinosaurs Fossils	Large sugar paper, A4 paper, potatoes, sharp knife, images of dinosaur footprints, scissors, feathers, brown and red paint, footprint templates from Lottie's pack

Sometimes palaeontologists have to use their creative imagination alongside their huge scientific knowledge about fossils. Dinosaur footprint trackways show us evidence of where dinosaurs used to travel, and they often give us clues as to how they used to behave with each other. In this activity, you can impress your friends by creating your own dinosaur trackway mystery and tell a gruesome story of a dinosaur fight!
