

# Bio-based plastics – making one large batch using a hob

## *Teachers only for all stages below*

1. Add the ingredients to a saucepan.

25g of potato starch

75ml water

30ml white vinegar

15ml glycerine

2. Heat over a low heat, stirring, until the mixture thickens.

3. Spread a dessertspoonful of the mixture onto baking parchment.

4. Leave to dry.
